

3. Paises

Carreteras year = 2010

select (country) from circuits

where [circuitid in (select (circuitid) from races
where year = 2010)]

select (country) from circuits

join races on circuits.circuitid = races.circuitid

where year = 2010

4. Nombre _{pilotos} of menos 1 _{carrera} year = 2016

```
select (forename) from drivers
where driverId in (select driverId from results
join races on results.raceId = races.raceId
where year = 2016)
```

5. Nombre
constructores

disputado
carreras

> 50 pilotos
diferentes

select name from constructors

where constructorId in (select constructorId from results
group by constructorId

having count(driverId) > 50)

14. nombre piloto circuito total paradas

pilotos con
> numero
de paradas

U
pilotos con
< numero
de paradas
